To Residents of the Strand HOA

RE: Mulching Program Follow Up

Now that the mulch for the community has been completed, we have had a couple of requests for touch ups on a home or two.

Given that some homeowners had trees stumps still not removed at the time of the mulch installation, we have made accommodations, and added mulch to those areas.

If you have some touch up areas where we may need more mulch, please let us know, (within the next ten days) and we review the requests and will arrange to have additional mulch installed as needed. This is not an opportunity to add more to the existing beds, this is just hitting missed areas. Your consideration is appreciated.

You can email me at michaeltowns@towneproperties.com.
