To All Strand Residents:

Starting on June 1, we will be conducting hard cut backs on the woody plant material in order to promote growth and flush out new foliage. Sometimes these cut backs seem drastic to the untrained eye, but they actually help the plant during the rainy season after fertilization. As with everything that has to do with Mother Nature, there can be no guarantee and/or warranty on how the plants will respond. Leo Jr. is not responsible for those older plants that do not recover from this practice and there may be plants that need to be replaced at the homeowner's expense. However, the majority of the plants respond remarkably well. If a homeowner does not want cut backs on their property, please have them notify us in writing by May 25. Email our office at office@leojrlandscaping.com.

If you have any questions, please contact me at 239-455-6904.

Sincerely,

Jesus Herrera
