April 9,2025

To all residents:

Starting the first week of May, we will be making hard cutbacks on the woody plant material to promote growth and flush out new foliage. Sometimes these cutbacks seem drastic to the untrained eye, but they help the plant during the rainy season after fertilization. As with everything that has to do with Mother Nature, there can be no guarantee and/or warranty on how the plants will respond. Leo Jr. is not responsible for those older plants that do not recover from this practice and there may be plants that need to be replaced at the homeowner's expense. However, the majority of the plants respond remarkably well. If a homeowner does not want cut back on their property, please have them notify us in writing by April 30,2025. Email our office at [office@leojrlandscaping.com](mailto:office@leojrlandscaping.com)

If you have any questions, please contact us at 239-455-6904

Sincerely,

Clay Zook  
MGRM
